Comdek Awarded Bootu Satellite Contract.

Comdek Ltd (ASX: CDS) is pleased to advise that it has won a major order from Bootu Creek Resources Pty Ltd to supply satellite communications to their manganese project in the Northern Territory, for the next 5 years.

Comdek, a leader in delivering satellite communications to remote communities, estimate that the facility will be fully operational by the end of the month.

The order confirms Comdek's role in the provision of reliable communication facilities to mine sites. The service provided is a state of the art SCPC system which will meet the current communications needs and expand in the future in line with the project needs.

The contract illustrates Comdek's confidence in the growth in the satellite sector and commitment to the mining industry. Comdek is also focusing on opportunities in the Asian and African regions.

About Comdek (ASX:CDS)

The Comdek group of companies offer a wide range of communication products ranging from ISP services to corporate VPNs. Comdek operates two satellite divisions: ESat a 2 way satellite based internet delivery service with HiBIS accreditation and Comdek Satellite Services which specializes in providing commercial SCPC (voice and data) communication via satellite for some of Australia's largest companies.
