ASX Release

Resource Generation acquires more land in Waterberg

Resource Generation Limited, which is developing one of South Africa's largest remaining coal deposits, has signed a purchase agreement to acquire more land for the company's Boikarabelo mine. The land covers two of the tenements contained in the Ledjadja prospecting right, Draai Om and Witkopje, and contains a significant portion of the mineable resource.

Following completion of the acquisition, Resource Generation will own seven portions of land totalling 8,397 hectares, on which it will be able to mine coal and construct required mine infrastructure for the proposed Boikarabelo mine.
