

## Board Changes at Clean TeQ

The Board of Clean TeQ Holdings Limited (**ASX; CLQ**) announces the following changes to the Board and Executive Management Team.

Due to current health issues, Mr Greg Toll, Chief Executive Officer, will step down as Chief Executive Officer of the Company with effect from 2 August 2010. Mr Peter Voigt who is currently an Executive Director and Chief Technology Officer will replace Mr Toll as Managing Director and Chief Executive Officer from this date.

Mr Ralph Pliner has notified the Board that it is his intention to step down from the Board after 3 years as its Chairman at the end of September 2010. It is the Board's intention to appoint Mr Toll as Chairman of the Board when Mr Pliner retires at the end of September.

"Greg Toll's contribution to the Company has been invaluable as he has been one of the key drivers behind the successful IPO and business expansion over the past decade. It is with regret that I have to make this announcement of the need for Greg Toll to stand down as the Company's Chief Executive Officer. However, Greg's business knowledge and expertise will not be lost to the business as he continues as a Director and moves into the role of Chairman from October 2010. The Board wishes Greg a speedy recovery and looks forward to his ongoing contribution to the business," said Ralph Pliner, Clean TeQ's Chairman.

The Board of Clean TeQ Holdings Limited also advises that Mr Jeremy Carter, after almost 3 years service on the Board, has decided to resign as a Director of the Company with effect from 2 August 2010.

"We are very appreciative of the invaluable contribution made by Jeremy Carter and the guidance and strategic skills that he has provided to the Company over recent years. Jeremy will continue to provide strategic advice and consulting services to the Company as and when required," said Ralph Pliner.

"Peter Voigt has been instrumental in the development of the Company and its technologies over a 20 year period. He will provide the guidance necessary for the continuing growth of the business and ongoing commercialisation of its technologies. The recent addition of Messrs Bob Cleary and Roger Harley as Non-Executive Directors of the Company has provided the skills and expertise to guide and assist Peter as the Company enters its next stage of development," said Ralph Pliner.
