Record Date and Voting Securities

As of the close of business on March 6, 2013, there were in total 173,959,863 shares of common stock outstanding, par value US\$0.0001 per share. 173,763,774 of our outstanding shares are held by CHESS Depository Nominees Pty Ltd ACN 071 346 506 (“CDN”), a wholly-owned subsidiary of ASX Limited ACN 008 624 691, which operates the Australian Securities Exchange (“ASX”) and the balance is held by 85 of our employees. Securities of companies incorporated outside of Australia, such as UBI, are traded as CHESS Depository Interests (“CDIs”) on the ASX. CDIs represent beneficial interests in the common stock held by CDN. CDIs are traded on the ASX. As of March 6, 2013, there were 173,763,774 CDIs on issue and available to be traded on ASX. As of March 6, 2013, there were 86 holders of shares (including CDN) and 1,627 holders of CDIs (“CDI Holders” or “Holders of CDIs”).

CDIs are exchangeable, at the option of the holder, into shares of our common stock at a ratio of 1:1. Holders of CDIs have the right to direct CDN, as the holder of record of the underlying shares of common stock represented by their CDIs, how it should vote the underlying shares of common stock represented by their CDIs and to attend stockholders’ meetings of the Company. If CDN does not receive a duly executed CDI Voting Instruction Form from a CDI Holder as to how to vote the underlying shares represented by those CDIs, those shares will not be voted and will not be considered present at the Meeting for quorum purposes. A holder of CDIs will be entitled to vote at the Meeting only if such holder directs CDN to designate such holder as proxy to vote the underlying shares of common stock represented by CDIs held by such holder. Holders of CDIs who wish to direct CDN how to vote the underlying shares of common stock represented by their CDIs should complete and return the enclosed CDI Voting Instruction Form or submit their instructions online by following the instructions on the CDI Voting Instruction Form, which is being delivered with this Proxy Statement to each CDI Holder.

The record date is the close of business on March 18, 2013 (the “Record Date”). Only stockholders and CDI Holders of record on the books of the Company at the close of business on the Record Date are (1) with respect to stockholders, entitled to receive notice of and to vote at, and (2) with respect to CDI Holders entitled to receive notice of and to direct CDN how to vote at, the Meeting and any adjournments thereof. Under arrangements established between the Company and CDN in connection with the issuance of CDIs, the holders of CDIs at the close of business on the Record Date are entitled to notice of and to attend the Meeting and to direct CDN how to vote by completing a CDI Voting Instruction Form or by submitting their voting instructions online.

At the Meeting, Proxy Holders and CDN may only vote the shares represented by all properly dated, executed and returned Proxy Cards (in the case of stockholders) and properly dated, executed and returned CDI Voting Instruction Form (in the case of CDI Holders) in accordance with the instructions of the respective stockholders and CDI Holders. Proxies cannot be voted for a greater number of persons than the number of nominees named. If no specific instructions are given on a properly dated, executed and returned Proxy Card (in the case of stockholders) or CDI Voting Instruction Form (in the case of CDI Holders), the shares will be voted "FOR" the nominee for the Board, "FOR" the approval, on an advisory basis, of the compensation for named senior executives of the Company and "FOR" the authorization and approval of the grant of securities to Paul Wright. In addition, if other matters come before the Meeting, the Proxy Holders and CDN will vote in accordance with their or its best judgment with respect to such matters. On all matters to be voted on, each share, and accordingly, each CDI, has one vote.

We are making this proxy solicitation by and on behalf of the Board of Directors. The cost of preparing, assembling, printing and mailing this Proxy Statement and the proxies solicited hereby will be borne by the Company. Proxies may be solicited personally or by telephone, electronic mail or facsimile by the Company's officers, directors and regular employees, none of whom will receive additional compensation for assisting with solicitation.

Quorum; Required Vote

A quorum is required for the transaction of business during the Meeting. A quorum is present when the holders of one-third of the common stock issued and outstanding and entitled to vote at a meeting, are present in person or represented by proxy. Shares that are voted "FOR", "AGAINST" or "ABSTAIN" on a matter are treated as being present at the Meeting for purposes of establishing a quorum and are also treated as votes cast by the common stock present in person or represented by proxy at the Meeting and entitled to vote on the subject matter. If no specific instructions are given on a properly dated, executed and returned Proxy Card (in the case of stockholders) or CDI Voting Instruction Form (in the case of CDI Holders), the shares will be treated as being present at the Meeting for purposes of establishing a quorum. Broker non-votes discussed below are not considered entitled to vote on matters that are not considered routine.

The candidate for election as a director at the Meeting who receives the highest number of affirmative votes present or represented by proxy and entitled to vote at the Meeting will be elected. The affirmative vote of a majority of shares of the Company's common stock present or represented by proxy and entitled to vote at the Meeting will constitute approval of the compensation for named senior executives of the Company. This vote is advisory only and is therefore not binding on the Company. The affirmative vote of a majority of shares of the Company's common stock present or represented by proxy and entitled to vote at the Meeting will constitute approval to issue the specified securities to Mr. Paul Wright. The approval of the grant of securities to Mr. Wright is not required under applicable U.S. law but is required under the ASX Listing Rules.

Abstentions will not be counted with respect to the election of a director but will have the effect of negative votes with respect to the advisory vote on the compensation for named senior executives and the approval of the grant of securities to Mr. Paul Wright.

A broker “non-vote” occurs when your broker (if applicable) submits a proxy for your shares but does not indicate a vote for a particular proposal because the broker does not have authority to vote on that proposal and has not received specific voting instructions from you. If your shares are held by a broker, the broker may require your instructions in order to vote your shares. If you give the broker instructions, your shares will be voted as you direct. If you do not give instructions, one of two things can happen depending on the type of proposal. If the proposal is considered “routine,” the broker may vote your shares in its discretion. For other proposals, including the proposals in relation to the re-election of a director, the compensation of named senior executives and the grant of securities to Mr. Paul Wright, brokers that are members of an exchange registered as a national exchange under the U.S. Securities Exchange Act of 1934, as amended (“Securities Exchange Act”) may not vote your shares without your instructions.

Revocability of Proxies

If you are a stockholder entitled to vote or a CDI Holder and you have submitted a Proxy Card or CDI Voting Instruction Form (as applicable), you may revoke your Proxy Card or CDI Voting Instruction Form at any time before the Meeting by delivering a written revocation to the Company Secretary of the Company or by delivering a duly executed Proxy Card or CDI Voting Instruction Form bearing a later date.

PROPOSAL ONE — ELECTION OF A DIRECTOR

Our Board of Directors has been structured as a ‘staggered Board’ comprising three classes of directors with members in each class of directors serving for staggered three-year terms or until his or her successor is duly elected or until his or her earlier death, resignation or removal. The Board of Directors currently consists of two Class I directors (currently Mr. Andrew Denver and Mr. Andrew Jane), whose term will expire at the meeting of stockholders to be held in 2015, three Class II directors (currently Mr. Denis Hanley, Dr. Elizabeth (Jane) Wilson, and Mr. Paul Wright), whose term will expire at the meeting of stockholders to be held in 2014, and two Class III directors (currently Mr. Marshall Heinberg and Dr. Colin Adam), whose term will expire at this year’s Meeting of stockholders.

One (1) director nominee, Mr. Marshall Heinberg, is seeking to be re-elected at the Meeting to hold office until the meeting of stockholders in 2016, or until his successor is duly elected and qualified. Mr. Marshall Heinberg is presently a director whose term will expire at the Meeting. Dr. Colin Adam, whose term will also expire at the Meeting, is not seeking re-election at the Meeting. If re-elected, Mr. Marshall Heinberg will, unless he resigns, dies or is removed earlier, hold office until the meeting of stockholders in 2016, and until his successor is duly elected and qualified.

For details of the qualifications, skills and experience of Mr. Marshall Heinberg, refer to the section below titled “Management of the Company — Board of Directors”. The nominee is willing to be elected and to serve for the three-year term. Management expects that the nominee will be available for election, but if the nominee is not a candidate at the time the election occurs, it is intended that such proxy will be voted for the election of another nominee or nominees to be designated by the Board of Directors to fill any such vacancy. See also “Management of the Company.”

The Board of Directors unanimously recommends that you vote FOR the election of the nominated director. Proxy holders and CDN will vote as directed on the Proxy Card (in the case of stockholders) or CDI Voting Instruction Form (in the case of CDI Holders) or, if no direction is made in a duly dated, executed and returned Proxy Card (in the case of stockholders) or CDI Voting Instruction Form (in the case of CDI Holders), “FOR” this proposal. However, brokers who are members of a U.S. national securities exchange may not vote or submit instructions to the proxy holders or CDN if the beneficial owner of the shares has not given instructions. The election of a director requires the affirmative vote of a plurality of the shares of Common Stock present and voting at the Meeting.

PROPOSAL TWO — ADVISORY VOTE ON THE COMPENSATION OF SENIOR EXECUTIVES

The Company is providing stockholders with the opportunity to cast an advisory vote on the executive compensation programs and policies and the compensation paid to the senior executive officers named in this Proxy Statement. This proposal is known as a “say-on-pay vote” and is required pursuant to Section 14A of the Securities Exchange Act. Details of our compensation for our senior executives is set out under the headings “Compensation Discussion and Analysis”, “Compensation Committee Report”, “Summary Compensation Table”, “Grants of Plan-Based Awards During 2012” and “Narrative disclosure to summary compensation table and grants” of this Proxy Statement. These disclosures are intended to comply with Item 402 of United States Regulation S-K. As discussed in the Compensation Discussion and Analysis section of this Proxy Statement, our compensation principles and underlying programs are designed to attract, motivate and retain key executives who are crucial to our long-term success. The vote is advisory and is not binding on the Company. However, the Remuneration and Nomination Committee will take into account the outcome of the vote when considering future executive compensation arrangements. Details of how the Remuneration and Nomination Committee has considered the results of the advisory vote will be included in the Compensation Discussion and Analysis sections of future proxy statements.

We will seek an advisory vote in relation to compensation every year, which we believe will be the most effective means for conducting and responding to such an advisory vote.

The Board of Directors unanimously recommends that you vote FOR this proposal to approve, on an advisory basis, the compensation for the Company’s senior executives as disclosed in the Compensation Discussion and Analysis, the compensation tables, and the related disclosure required pursuant to Item 402 of Regulation S-K contained in this Proxy Statement. The proxy holders and CDN will vote as directed on the Proxy Card (in the case of stockholders) or CDI Voting Instruction Form (in the case of CDI Holders) or, if no direction is made in a duly dated, executed and returned Proxy Card (in the case of stockholders) or CDI Voting Instruction Form (in the case of CDI Holders), “FOR” this proposal. However, brokers who are members of a U.S. national securities exchange may not vote or submit instructions to the proxy holders or CDN if the beneficial owner of the shares has not given instructions. In order to be adopted as an advisory vote, this proposal must be approved by the affirmative vote of the holders of a majority of the shares of Common Stock present and entitled to vote at the Meeting.

PROPOSAL THREE — GRANT OF SECURITIES

The grant of securities to directors under our incentive schemes requires the approval of shareholders under ASX Listing Rule 10.14. In accordance with ASX Listing Rule 10.14, the Company is seeking the approval of the grant of the following securities to Mr. Paul Wright, the Company’s Chief Executive Officer and Executive Director:

- 37,500 zero exercise price employee options to acquire shares of our common stock (“ZEPOs”); and
- 917 restricted fully paid shares of our common stock (“Restricted Shares”).

Proposal 3(a)

Following annual reviews of senior executive performance, on November 13, 2012, our Board approved the grant of 37,500 ZEPOs to our Chief Executive Officer, Mr. Paul Wright, subject to the receipt of stockholder approval. The ZEPOs were approved to be granted to Mr. Paul Wright at the same time as the Company granted ZEPOs to our other senior executives. The ZEPOs would be granted pursuant to the terms and conditions of our employee option plan (the “Employee Option Plan”). The ZEPOs are proposed to be granted for no cash consideration and with a zero exercise price. The proposed options would vest in three equal tranches over three years with the first tranche vesting on December 31, 2013, the second tranche vesting on December 31, 2014 and the third tranche vesting on December 31, 2015.

In accordance with the Employee Option Plan, if a formal takeover offer is made for the Company, all options which have not yet vested will automatically vest. When exercisable, each ZEPO would entitle Mr. Wright to subscribe for one fully paid share of our common stock. Each share issued on exercise of a ZEPO

will have the same terms, conditions and entitlements as all of the other shares of our common stock then on issue. While Mr. Wright is an executive of the Company, shares issued on exercise of the 37,500 ZEPOs approved to be granted on May 16, 2013 are not able to be traded for a period up to four years from the Board of Directors grant approval date following which the shares may not be traded without the approval of the Board of Directors (or its delegate), which approval may be granted or withheld at its sole discretion. The shares become immediately tradable if Mr. Wright ceases to be an employee of the Company and its associated group of companies.

Proposal 3(b)

On November 13, 2012, our Board approved the grant of 917 Restricted Shares to Mr. Paul Wright pursuant to the terms of our employee share plan (the "Employee Share Plan"), subject to the receipt of stockholder approval. The Restricted Shares were approved to be granted to Mr. Paul Wright at the same time as the Company granted Restricted Shares to all our other eligible employees. No consideration is payable in connection with the issue of Restricted Shares. The Restricted Shares have the same terms, conditions and entitlements (including par value) as our existing shares of common stock but are not able to be traded until the earlier of the following:

- three years from the date on which the Restricted Shares are issued; or
- the date the CEO ceases to be an employee of the Company or any of its associated group of companies.

The Company intends to issue Restricted Shares to all eligible employees on a recurring basis. The Company proposes to use Restricted Shares as a key tool on aligning the interests of all employees with the Company through equity ownership.

The ZEPOs and Restricted Shares would be granted to the Chief Executive Officer as soon as practicable after the Meeting and in any event no later than 12 months from the date of the Meeting. The Company will not provide any loans or other financial assistance in connection with the grant or exercise of the ZEPOs or Restricted Shares to Mr. Paul Wright. Our Board of Directors has resolved that our non-executive directors currently comprising Messrs Hanley, Denver, Heinberg, Jane and Drs. Adam and Wilson, will not receive ZEPOs, Employee Options or Restricted Shares and therefore are currently ineligible to participate under the Employee Option Plan or the Employee Share Plan. No director, other than Mr. Paul Wright, is eligible to participate in the Employee Option Plan or Employee Share Plan. The last approval for the grant of securities to a director was at the 2011 general meeting at which time stockholders approved the grant of 2.3 million employee options with a nil grant price and an exercise price of \$1.38 to Mr. Paul Wright which were issued on 13 May 2011.

Further information about our remuneration framework for senior executive officers, including the use of ZEPOs, is set out in the remuneration report contained in this Proxy Statement. Our Board of Directors considers ZEPOs and Employee Options a reward for past performance and a key tool in retaining and incentivizing senior executives. The Company intends to grant ZEPOs to senior executives of the Company on a recurring basis.

The Board of Directors unanimously recommends that you vote FOR the proposals to approve the grant of securities to Paul Wright. The proxy holders and CDN will vote as directed on the Proxy Card (in the case of stockholders) or CDI Voting Instruction Form (in the case of CDI Holders) or, if no direction is made in a duly dated, executed and returned Proxy Card (in the case of stockholders) or CDI Voting Instruction Form (in the case of CDI Holders), "FOR" this proposal. In order to be adopted, this proposal must be approved by the affirmative vote of the holders of a majority of the shares of Common Stock present and voting at the Meeting.

ASX LISTING RULE VOTING EXCLUSION STATEMENT

As required by the ASX Listing Rules, the Company will disregard any votes cast with respect to Proposal 3:

- by any director of the Company (except a director who is ineligible to participate in the Employee Option Plan or Employee Share Plan) and, if ASX has expressed an opinion under ASX Listing Rule 10.14.3 that approval is required for participation in the Plan by anyone else, that person; and

- any of their associates.

As required by the ASX Listing Rules, the Company will disregard any votes cast with respect to Proposal 3 by any director of the Company or by any of their associates. However, the Company need not disregard a vote if it is cast by a person as proxy for a person who is entitled to vote, in accordance with the directions on the proxy form; or it is cast by the person chairing the meeting as proxy for a person who is entitled to vote, in accordance with the directions on the proxy form to vote as the proxy decides.

Involvement in Certain Legal Proceedings

There are no legal, governmental or arbitration proceedings pending against us or Universal Biosensors Pty Ltd, which may have a material effect on our business.

Corporate Governance

We are not listed on a U.S. securities exchange and, therefore, not subject to the corporate governance requirements of any such U.S. exchange, including those relating to independence of directors. For purposes of determining whether our directors are independent under applicable rules and regulations promulgated by the Securities and Exchange Commission, we have chosen to use the definition of “independence” established by the Nasdaq Stock Market under its Marketplace Rules, as permitted by such rules and regulations.

We have determined that with the exception of Mr. Wright, all the current directors and nominees are independent as defined under the Marketplace Rules of the Nasdaq Stock Market.

We have determined that Mr. Wright is not independent as defined under the Marketplace Rules of the Nasdaq Stock Market because he is the Chief Executive Officer of the Company. From September 2010 to May

2011, our Chairman, Mr. Denver served as interim Chief Executive Officer of the Company. We did not consider Mr Denver to be independent while he acted as our interim Chief Executive Officer, however, notwithstanding that he held this position, our Board has determined that he is now independent.

The ASX also provides guidelines for determination of whether a director should be considered independent for purpose of the ASX Listing Rules. Under these guidelines the holding of a substantial interest in the Company's shares is considered a matter which may affect independence. Each of Messrs. Hanley, Denver and Dr. Adam are directors of companies which hold a substantial interest in the Company's securities and therefore may not be considered independent for the purposes of the ASX guidelines. Until December 2012, Mr. Jane was a Partner of CM Capital Investments Pty Ltd which holds a substantial interest in the Company's securities. Mr. Jane is now managing director of Talu Ventures Pty Ltd which provides services to CM Capital Investments Pty Ltd. Mr. Jane remains a member of CM Capital Investments Pty Ltd's investment committee for the CM Capital Venture Trust No. 3 and CM Capital 3A, which have a substantial beneficial interest in the Company's securities. As a result, Mr. Jane may not be considered independent for the purposes of ASX Guidelines.

Board Leadership Structure

The position of Chairman of the Board of Directors and Chief Executive Officer is held by two separate officers within our Company. From September 2010 to May 2011, our Chairman, Mr. Andrew Denver served as interim Chief Executive Officer of the Company. It is the intention of our Board of Directors that the position of Chairman of the Board of Directors and Chief Executive Officer will be held by two separate officers of the Company. The Company does not have a lead independent director. Our Board of Directors believes the Company's leadership structure is appropriate as having the position of Chairman and Chief Executive Officer held by two separate officers within our Company is indicative of stronger governance and reinforces the Company's sound framework of internal control. The Board regularly deliberates and discusses its appropriate leadership structure and the role and responsibilities of the Chairman of the Board and the Chief Executive Officer, based upon the needs of the Company from time to time to provide effective oversight of management.

Risk Management

Oversight of the Risk Management System

The Board oversees the establishment, implementation and annual review of the Company's risk management. The Chief Executive Officer and the Chief Financial Officer have declared in writing to the Audit & Compliance Committee that the controls and procedures have been assessed and found to be operating effectively. The operational and other compliance risk management processes have also been assessed and found to be operating effectively.

Whilst management provides reports to the Board on the status of the risk management system, which is aimed at ensuring risks are identified, assessed and appropriately managed, in some instances the Audit & Compliance Committee also reports to the Board on this matter.

Risk Management Compliance and Control

The Board is responsible for the overall internal control framework, but recognizes that no cost-effective internal control system will preclude all errors and irregularities. To assist in discharging this responsibility, the Board has developed an internal control framework as summarized below:

- (a) Internal audits — the Company's internal auditor reports to the Audit & Compliance Committee at least once per quarter on internal controls over financial reporting matters. On an annual basis, the Company gets audited on its Quality Management System, ISO 13485:2003, an international standard covering the global medical device sector. This certification covers the "design and development, production and distribution of blood glucose measuring systems and other in vitro diagnostic devices".
- (b) Financial reporting — there is a comprehensive budgeting system with an annual budget approved by the Board. Monthly actual results are reported against budget and major variances, if any, must be explained.

(c) Continuous disclosure — the Company has policies in place to ensure the Company complies with the continuous disclosure and other applicable requirements of the ASX Listing Rules.

The Chief Executive Officer and the Chief Financial Officer have stated in writing to the Audit & Compliance Committee that the Company's financial reports are founded on a sound system of risk management and internal compliance and control which implements the policies adopted by the Board.

Assessment of Effectiveness of Risk Management

The internal auditor assists the Board in ensuring compliance with the internal controls and risk management program over financial reporting by regularly reviewing the effectiveness of the compliance and control systems. The Audit & Compliance Committee is responsible for approving the scope of work to be performed on a regular basis.

Internal Control and Sarbanes Oxley

Pursuant to section 404 of the Sarbanes-Oxley Act of 2002, we are required to evaluate the effectiveness of internal controls over financial reporting as of the end of each fiscal year. As part of our compliance efforts relative to section 404, we have fully implemented the controls over financial reporting. We have adopted the internal control framework set forth by the Committee of Sponsoring Organizations ("COSO") of the Treadway Commission in completing the assessment. The Audit & Compliance Committee has monitored, and will continue to monitor, the Company's response to rules pursuant to section 404 of the Act.

Board Committees

Our Board of Directors met on twelve occasions during the year ended December 31, 2012 and acted by written consent on five occasions. Each director attended at least 75% of the aggregate of (i) the total number of meetings of the Board; and (ii) the total number of meetings held by all committees of the Board on which he or she served. There are two committees of the Board: the Audit and Compliance Committee and the Remuneration and Nomination Committee.

Members of our Board of Directors are encouraged to attend the Meeting of Stockholders if they are available. All the current members of our Board of Directors attended the Meeting of Stockholders held in 2012, with Mr Heinberg attending by phone.

Audit and Compliance Committee

The Company has a separately designated standing audit and compliance committee in accordance with Section 3(a)(58)(A) of the Securities Exchange Act. The current members of the Audit and Compliance Committee are Mr. Colin Adam, Mr. Denis Hanley and Dr. Jane Wilson (chairman). Upon his retirement at the Meeting, Dr. Adam will cease to be a member of the Audit and Compliance Committee and will be replaced by Mr. Andrew Denver. The Audit and Compliance Committee is governed by a formal charter, a copy of which is available on our website at www.universalbiosensors.com. The Board has determined that Mr. Hanley and Drs. Adam and Wilson (and Mr. Denver when he joins the Audit and Compliance Committee) meet the criteria for being independent directors under the Marketplace Rules of the Nasdaq Stock Market. However, Messrs Hanley, Denver and Dr. Adam are directors of companies which hold a substantial interest in the Company's securities and therefore may not be considered independent for the purposes of the ASX Guidelines. Although the Company has determined that Mr. Denver is an independent director under the Nasdaq Stock Market rules, the Nasdaq Stock Market rules also include certain other requirements for service on the Audit and Compliance Committee which Mr. Denver does not meet. Specifically, Mr. Denver would be ineligible to serve on the Audit and Compliance Committee if the Company was listed on a Nasdaq exchange because within the past three years, he assisted with the preparation of financial statements of the Company in his capacity as interim Chief Executive Officer. However, as noted elsewhere herein, the Company is not required to comply with Nasdaq Stock Market rules since it is not a Nasdaq Stock Market listed company. During the year ended December 31, 2012, the Committee met on six occasions. For more information in relation to the determination of which of our directors are considered independent under the Marketplace Rules of the Nasdaq Stock Market, refer to the section above titled "Corporate Governance".

The Board has determined that each of Mr. Denis Hanley and Dr. Jane Wilson qualify as an “audit committee financial expert”, as defined under the rules and regulations of the Securities and Exchange Commission.

Report of the Audit and Compliance Committee

The Audit and Compliance Committee’s primary role is to assist the Board of Directors in fulfilling its responsibility for oversight of the Company’s financial and accounting operations.

In discharging its responsibility for oversight of the audit process, the Committee obtained from the independent auditor, PricewaterhouseCoopers, the written disclosure and the letter required by applicable requirements of the Public Company Accounting Oversight Board describing any relationships between the auditor and the Company that might bear on the auditor’s independence consistent with the Independent Standards Board Rule 3526, “Communication with Audit Committees Concerning Independence, of the Public Company Accounting Oversight Board” (“PCAOB”) and discussed with the auditor any relationships that might impact the auditor’s objectivity and independence and satisfied itself as to the auditor’s independence.

The Committee discussed and reviewed with the independent auditor the communications required by generally accepted auditing standards, including those described in Statement on Auditing Standards No. 61, “Communication with Audit and Compliance Committees”, as amended, and discussed and reviewed the results of the independent auditor’s examination of the financial statements for the fiscal year ended December 31, 2012.

The Committee reviewed and discussed the audited financial statements of the Company as of and for the fiscal year ended December 31, 2012, with management and the independent auditor. Management has the responsibility for preparation of the Company’s financial statements and the independent auditor has the responsibility for examination of those statements. Based upon the above-mentioned review and discussions with management and the independent auditor, the Committee recommended to the Board that the Company’s audited financial statements be included in its Annual Report on Form 10-K for the fiscal year ended December 31, 2012, for filing with the SEC.

By the Audit and Compliance Committee:

Jane Wilson (chairman)
Colin Adam
Denis Hanley

Remuneration and Nomination Committee

The current members of the Remuneration and Nomination Committee are Mr. Andrew Denver, Mr. Marshall Heinberg and Mr. Andrew Jane (chairman). The Remuneration and Nomination Committee is governed by a formal charter, a copy of which is available on our website at www.universalbiosensors.com. The Board has determined that Mr. Denver, Mr. Heinberg and Mr. Jane meet the criteria for being independent under the Marketplace Rules of the Nasdaq Stock Market. Mr. Denver is a director of a company which holds a substantial interest in the Company’s securities and therefore may not be considered independent for the purposes of the ASX Guidelines. Until December 2012, Mr Jane was a Partner of CM Capital Investments Pty Ltd which holds a substantial interest in the Company’s securities. Mr. Jane is now managing director of Talu Ventures Pty Ltd which provides services to CM Capital Investments Pty Ltd. Mr. Jane remains a member of CM Capital Investments Pty Ltd’s investment committee for the CM Capital Venture Trust No. 3 and CM Capital 3A, which have a substantial beneficial interest in the Company’s securities. As a result, Mr. Jane may not be considered independent for the purposes of ASX Guidelines. The primary functions of the Remuneration and Nomination Committee are to develop and facilitate a process for Board and Director evaluation, assess the availability of Board candidates, make specific recommendations to the Board on remuneration and incentive plans for Directors and senior management, advise the Board on the recruitment, retention and termination

policies for senior management and undertake a review of the Chief Executive Officer's performance, at least annually, including recommending to the Board the Chief Executive Officer's goals for the coming year and reviewing progress in achieving those goals. The Committee does not have any express right to delegate its authority but may do so on special authority from the Board. The Remuneration and Nomination Committee met on four occasions during the year ended December 31, 2012.

If necessary, the Remuneration and Nomination Committee may utilize a variety of methods for identifying and evaluating potential nominees to the Board of Directors. Consideration is given to professional and technical experience of potential nominees including industry and market knowledge, education and skills. Recommendations may come from current Board members, professional search firms, members of management, stockholders or other persons. The Remuneration and Nomination Committee will consider recommendations from any reasonable source, including director nominees recommended by stockholders. Stockholders wishing to suggest potential nominees can do so by contacting the Company Secretary. In assessing the qualifications of potential nominees, the Remuneration and Nomination Committee may rely on personal interviews or discussions with the candidate and others familiar with the candidate's professional background, on third party reference checks and on such other diligence information as is reasonably available.

Nominations of persons for election to our Board of Directors may be made at any annual meeting of stockholders, or at any special meeting of stockholders called for the purpose of electing directors in accordance with the requirements of our amended and restated certificate of incorporation and amended and restated by-laws. Stockholders wishing to appoint a director must give timely notice thereof in proper written form. To be timely, a stockholder's notice in the form required by our amended and restated certificate of incorporation and by-laws must be delivered to or mailed and received at our principal executive offices: (a) in the case of an annual meeting, not less than 90 days and not more than 120 days prior to the anniversary date of the immediately preceding annual meeting, provided, however, that in the event that the annual meeting is called for a date that is not within 30 days before or after such anniversary date, notice by the stockholder in order to be timely must be so received not later than the close of business on the tenth day following the day on which such notice of the date of the annual meeting is given; and (b) in the case of a special meeting of stockholders called for the purpose of electing directors, not later than the close of business on the tenth day following the day on which notice of the date of the special meeting is given.

Director Selection Process

As discussed above, we maintain a standing Remuneration and Nomination Committee that is responsible for assembling a group of nominees that, taken together, have the background, experience, qualifications, attributes and skills appropriate for functioning as a board. The Remuneration and Nomination Committee periodically reviews the size and composition of the Board and determines whether to add or replace directors. The Remuneration and Nomination Committee looks for certain characteristics common to all Board members, including strong professional reputation, integrity, record of achievement and the ability and commitment to devote sufficient time and energy to the Board. The Remuneration and Nomination Committee seeks to nominate candidates who bring diverse backgrounds, skills, experience and perspectives to the Board. Diversity relating to background, skill, experience and perspective is one factor considered in the nomination process, and the Company is in the process of developing a formal policy relating to diversity. Additionally, the Remuneration and Nomination Committee seeks to include at least one member who qualifies as an “audit committee financial expert.”

Compensation Committee Interlocks and Insider Participation

The current members of the Remuneration and Nomination Committee are Mr. Marshall Heinberg, Mr. Andrew Denver and Mr. Andrew Jane (chairman). Prior to the establishment of our Remuneration and Nomination Committee in 2007, our Board of Directors was responsible for determining executive remuneration. None of our executive officers or employees other than the Chief Executive Officer participated in deliberation with respect to executive officer compensation.

None of our executive officers serve as a member of the board of directors or compensation committee of any entity that has one or more executive officers who serve on our board of directors or compensation committee. Other than acting as directors, none of the members of our compensation committee, with the exception of Mr. Andrew Denver, have been an officer or employee of us or one of our subsidiaries. Mr. Denver, a member of the compensation committee, was our and our subsidiary's interim Chief Executive Officer from September 2010 to May 2011.

For more information on the Committee's processes and procedures for the consideration and determination of executive and director compensation, see "Compensation Discussion and Analysis" and "Compensation of Directors."

Pursuant to the ASX Listing Rules, our stockholders have approved an aggregate remuneration pool available to non-executive directors of A\$700,000 per annum. EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Principles used to determine the nature and amount of remuneration

The objective of our executive reward framework is to ensure the reward for performance is competitive and appropriate for the results delivered. The framework aligns executive reward with achievement of strategic objectives and the creation of value for stockholders and conforms to market best practice for delivery of reward. Our performance depends upon the quality of our directors and executives. In order to attract, motivate and retain highly skilled directors and executives, we utilize the following principles in our remuneration framework:

- provide competitive remuneration to attract, motivate and retain high caliber directors and executives with appropriate skills and experience;
- remunerate with a mix of short and long term components;
- remunerate executives according to individual performance and pre-determined benchmarks through cash bonuses; and
- link executive remuneration to stockholder value through options.

The Remuneration and Nomination Committee has processes in place to review the performance of the Board of Directors and our senior executives. Our Remuneration and Nomination Committee takes into consideration elements such as the following in setting compensation policies:

- peer group comparisons with our financial performance (peer group comparison refers to comparing the practices of peers, and selecting those we believe are most suitable for the Company. The Company uses data available in the public domain, such as annual reports, for such companies in a similar industry to benchmark our policies);
- regulatory requirements;
- rate of employee turnover;
- content and effectiveness of our employee training;
- results of any employee surveys; and
- ability to retain and attract new employees.

Corporate performance is also taken into account in setting compensation policies and making compensation decisions.

Our executive remuneration comprises of separate and distinct components. The framework provides a mix of fixed pay and a blend of short and long-term incentives. As executives gain seniority with the group, the balance of this mix shifts to a higher proportion of “at risk” rewards such as bonuses and employee options. The executive remuneration framework currently has four components:

- base pay;
- short-term performance incentives in the form of cash bonuses;
- long-term incentives through participation in our employee stock option plan (“Employee Option Plan”), including through the use of market price employee stock options and zero exercise price stock options; and
- statutory superannuation.

The combination of these comprises the executive’s total remuneration.

Base pay and cash bonuses are paid in cash. Options, which constitute the current form of long-term equity incentive, take the form of options granted under the Employee Option Plan. Executive remuneration has provided substantial grants of stock options in order to promote share ownership as a direct means of incentivizing our executive officers and aligning the interests of our executive officer’s with the interests of our stockholders.

Base pay

Executives are offered a base pay that comprises the fixed component of their remuneration. Base pay is structured as a total employment cost package, which may be delivered as a combination of cash and prescribed non-financial benefits at the executives' discretion. Base pay is provided to meet competitive salary norms, with a goal of achieving salary levels competitive with those offered to executives by a comparison group of companies. A relevant understanding of salary levels for similarly situated executives can be achieved from the public domain including annual reports of similar companies and remuneration surveys that are conducted by several organizations. Base pay for senior executives is reviewed annually to ensure the executive's pay is competitive with the market. An executive's pay is also reviewed on promotion. There is no guaranteed base pay increase included in any senior executive's contract. In setting base salaries, consideration is given to salary compensation of executive officers within our industry and the performance of the executive in the previous year. A grading system is used to assess the performance of the executives at year end. The grade is used as a guide to the percentage increase in salaries. The quantum of the percentage increase is set by the Remuneration and Nomination Committee following recommendations from management that take into account factors such as inflation, performance of the Company and industry comparisons (salary compensation of executive officers within our Company is compared to executive compensation within companies in a similar industry). This data is available from the public domain and includes annual reports and remuneration surveys. At this time, the Company does not use professional compensation consultants to review remuneration, although it does gain insight and feedback when it uses professional recruiters to identify candidates for new roles. It is the intention of the Remuneration and Nomination Committee to pay base salaries to our executive officers that is commensurate with their qualifications and demonstrated performance and that bring continuing and increasing value to our stockholders.

Short-term incentives — Cash bonuses

If an executive achieves pre-determined milestones as set by the Remuneration and Nomination Committee, a cash bonus, up to a maximum amount for each executive as set by the Remuneration and Nomination Committee, may be paid to the relevant executive. The Remuneration and Nomination Committee may also decide to pay discretionary bonuses to executives depending on their performance during the financial year. The cash bonuses are awarded for superior performance against short-term goals. We believe that paying such cash bonuses will:

- promote the growth, profitability and expense control necessary to accomplish corporate strategic long-term plans;
- encourage superior results by providing a meaningful incentive; and
- support teamwork among employees.

If payable, cash bonuses are payable in the first quarter of each year. Each executive has a maximum potential cash bonus set by the Remuneration and Nomination Committee and determined depending on the accountabilities of the role and the impact on the organization.

Each year, the Remuneration and Nomination Committee considers the appropriate targets and key performance indicators to link short-term incentives and the level of payout if targets are met. This includes setting any maximum cash bonuses that may be paid to an executive, and minimum levels of performance to trigger payment of short-term incentives. The "targets and performance indicators" and "pre-determined milestones" are collectively referred to as key performance indicators ("KPIs") which are set by the Remuneration and Nomination Committee for the executives each financial year. The KPIs are generally a combination of the following:

- achieving budgets;
- regulatory submissions of our products by a specified date;
- managing risks;
- reaching a certain stage of our product development by a specified date; and

- achieving other key milestones for our products by a specified date including entering into strategic partnerships for the commercialization of our product and receiving regulatory clearance to sell our product.

The KPIs to be achieved by the executives have not been disclosed. Disclosure of the specific KPIs would require us to disclose market sensitive information, including key dates for our products and the product development stage of our products. Such disclosure would result in competitive harm to our business and that of our business partners.

For the year ended December 31, 2012, the KPIs linked to short-term incentives were based on group, departmental and personal objectives. The KPIs, which are challenging but not unattainable, require performance in achieving specific targets as well as other key, strategic non-financial measures linked to drivers of performance in future reporting periods.

The Remuneration and Nomination Committee is responsible for assessing whether the KPIs are met. To help make this assessment, the Remuneration and Nomination Committee receives detailed reports on performance from management.

The cash bonus payments may be adjusted up or down in line with under or over achievement against the target performance levels. This is at the discretion of the Remuneration and Nomination Committee.

Long-term incentives — Options and Restricted Shares

Our long term incentives primarily consist of stock option grants under our Employee Option Plan (“Employee Options”). The Employee Option Plan was adopted in 2004 and approved by our stockholders in October 2006. The Employee Option Plan permits our Board to grant employee stock options to our employees. The total number of options that may be granted under the Employee Option Plan is the maximum amount permitted by law and the ASX Listing Rules and the limits imposed on our authorized capital in our amended and restated certificate of incorporation. The overall objective for the Employee Option Plan is to provide an equitable and competitive means to reward our executive and other officers for their contribution to our long-range success. Our goal is to meet the following objectives:

- link each participant’s remuneration to our long-term success through the appreciation of stock price;
- align the interests of our officers with the interests of our stockholders, by linking the long-term value of the compensation to stockholder returns;
- generally provide annual grants of options that are market competitive; and
- improve our ability to attract and retain officers.

Historically, the Company has granted market price Employee Options to all of its employees. In 2009, the Company commenced granting zero priced employee options (“ZEPOs”) to its senior executive officers. The value of options granted is determined at the time of Board of Directors approval to grant and there is a direct relationship between the value of a stock option granted and the market price of our common stock. We believe that granting stock options is an effective method of motivating our executive and other officers to manage our business in a manner consistent with the interest of our stockholders. The Company may grant market priced options at the commencement of employment of senior executives to attract suitable candidates. The Company currently intends to grant ZEPOs to senior executive officers on a recurring basis. Because such grants allow for equity participation by senior executives and provide continuing incentives notwithstanding market downturns, the Company considers them to be a valuable tool for senior executive retention.

The grant of stock options to our officers is based primarily on their performance, title and base pay. Options granted since 2010 generally have a seven year term and vest in equal tranches over three years. Options granted prior to 2010 also vested over three years, however, they had a ten-year term. Our policies for allocating compensation between long-term incentives (primarily through the granting of options and some use of Restricted Shares) and currently paid out compensation (base pay and short-term incentives) is to achieve the goals set above. Currently, the allocation between long-term and short term incentives is determined by the Remuneration and Nomination Committee having regard to the seniority and experience of the employee.

Stock-option awards are generally granted annually to senior executives and officers in conjunction with the review of the performance of our executive and other officers.

Since 2009, we have also issued restricted shares to all employees under our Employee Share Plan (“Restricted Shares”). Our Employee Share Plan was adopted by the Board of Directors in 2009. The Employee Share Plan permits our Board to grant shares of our common stock to our employees. The number of shares able to be granted is limited to the amount permitted to be granted at law, the ASX Listing Rules and by the limits on our authorized share capital in our amended and restated certificate of incorporation. All our employees are eligible for shares under the Employee Share Plan. The Company currently proposes to issue A\$1,000 worth of restricted shares of common stock to each employee of the Company on a recurring basis, but no more frequently than annually. The restricted shares have the same terms of issue as our existing shares of common stock but are not able to be traded until the earlier of three years from the date on which the shares are issued or the date the relevant employee ceases to be an employee of the Company or any of its associated group of companies. We believe that the granting of restricted shares is an effective method of motivating our employees in a manner consistent with the interest of our stockholders.

Other remuneration — Superannuation

As required by Australian law, we contribute to standard defined contribution superannuation funds on behalf of all employees at an amount up to nine percent of each such employee’s salary. Superannuation is a compulsory savings program whereby employers are required to pay a portion of an employee’s remuneration to an approved superannuation fund that the employee is typically not able to access until they are retired. We permit employees to choose an approved and registered superannuation fund into which the contributions are paid.

Overview of the compensation process

The composition of compensation for our executive officers includes the following: base pay, cash bonus, stock-based awards and superannuation. The elements of executive compensation are discussed at the meetings of our Remuneration and Nomination Committee. During the end or beginning of each year, the Remuneration and Nomination Committee discusses the base salaries and cash bonus plans for the applicable year for our executive officers, and makes recommendations to the Board of Directors for its approval. The Board of Directors usually approves the base pays and cash bonus plan recommended by the Remuneration and Nomination Committee; though if it does not, it could ask the Remuneration and Nomination Committee to prepare revised recommendations. At or about the same time, the Remuneration and Nomination Committee, subject to the approval of the Board of Directors, grants stock-based awards to our executive and other officers. Under the Listing Rules of ASX, the grant of options or shares to directors as remuneration (who may or may not be executives) requires stockholder approval.

As part of the Remuneration and Nomination Committee’s process, the Chief Executive Officer meets with our Human Resources Manager and executive officers, and reviews the elements of each executive officer’s (excluding the Chief Executive Officer’s) compensation during the preceding years. The Human Resources Manager and the Chief Executive Officer liaise on compensation recommendations for each of our executive officers (excluding the Chief Executive Officer’s compensation). The Chief Executive Officer then presents their recommendations to the Remuneration and Nomination Committee. The Chairman of the Remuneration and Nomination Committee may liaise with the Human Resources Manager whilst reviewing the Chief Executive Officer’s compensation. Our executive officers are not present when our Human Resources Manager makes her recommendations or during the Remuneration and Nomination Committee’s deliberations on the compensation of our executive officers.

Additionally, we will seek an advisory vote in relation to compensation from stockholders every year, which we believe will be the most effective means for conducting and responding to such an advisory vote. The Board will consider the outcome of each such stockholders advisory vote.

Narrative disclosure to summary compensation table and grants

Cash Bonuses

The Chief Executive Officer is entitled to a maximum cash bonus equivalent to 25% of his base salary. The other executives are entitled to a maximum cash bonus equivalent to 20% of their base salary. The cash bonus component was arrived at after comparing them to peer groups. If a named executive achieves pre-determined milestones set by the Remuneration and Nomination Committee, a cash bonus, up to a maximum amount for each executive as set by the Remuneration and Nomination Committee, may be paid to the relevant executive. In 2012, named executives each generally had up to five KPIs each of which had a percentage indicative weighing against the potential bonus. Specific KPIs for 2012 are not disclosed as they would require us to disclose market sensitive information. For the year ended December 31, 2012, the KPIs linked to short-term incentives were based on group, departmental and personal objectives.

Employee Option Plan

The Employee Option Plan was adopted by the Board of Directors in 2004 and approved by our stockholders in October 2006. The Employee Option Plan permits our Board to grant stock options to our employees. The number of employee options able to be granted is limited to the amount permitted to be granted at law, the ASX Listing Rules and by the limits on our authorized share capital in our amended and restated certificate of incorporation. The ASX Listing Rules generally prohibit companies whose securities are quoted on the ASX from issuing securities exceeding 15% of issued share capital in any 12 month period, without stockholder approval. Broadly speaking, options are issued to staff under two categories — options to new staff and options to existing staff (recurring options). Options to new staff are generally granted within the year they commence employment and are typically market price Employee Options. Recurring options are issued based on the events that transpired during the year. The recurring options granted to employees in 2012 were granted on the basis described in this section. The number of options to be granted as part of a recurring grant of options is determined within salary bands. Additional options may be granted at other times upon the achievement of predetermined key performance indicators. The Company currently intends to grant ZEPOs to senior executives of the Company on a recurring basis. Other senior employees are expected to be granted market price Employee Options on a recurring basis.

When exercisable, each option is convertible into one share of common stock at an exercise price determined on the date of grant. The exercise price is determined by the Board at the time of approval of grant. The exercise price of all market price options since 2009 has been calculated as the closing price of the Company's common stock on ASX on the day on which the employee options were granted. The exercise price of all market price options up to 2009 have historically been calculated as the average closing price of the Company's common stock on the ASX on the five days on which the Company's common stock has traded prior to the approval of grant. The Company has also granted certain options with a zero exercise price. The contractual life of each option granted is between seven and ten years. No option holder has any right under the option to participate in any other issues of shares of our common stock or any other entity without first having exercised the options. Any exercise conditions must be satisfied before the options vest and become capable of exercise. To date, other than with respect to the "sign on" options granted to Paul Wright in 2011, options have been subject to time based vesting over either three or four years (depending on the year in which they were granted). Exercise conditions are determined by the Board at the time of grant of the options. This determination would typically follow a recommendation from the Remuneration and Nomination Committee. To date, we have not extended or undertaken any other modifications to outstanding options. In 2007, the exercise price of all employee options on issue at that time were adjusted in accordance with a formula set out in the ASX Listing Rules as a result of a renounceable rights issue capital raising undertaken by the Company. The Company has not

otherwise repriced any of its options. The options lapse on such date determined by the Board at the time of grant or earlier in accordance with the Employee Option Plan. Options may be subject to adjustment in the event of a stock split, stock dividend, consolidation or other change in the structure of our capitalization. Options carry no dividend or voting rights. With respect to options granted to named executives after 2009, the shares issued to those executives on exercise of their employee options are not able to be traded for a period up to four years from the grant date following which time the Board of Directors (or its delegate) must grant approval to trade, which may be granted or withheld at its sole discretion, for the shares to be traded. The shares become immediately tradable if the named executive ceases to be an employee of the Company and its associated group of companies.

Employee Share Plan

Our Employee Share Plan was adopted by the Board of Directors in 2009. The Employee Share Plan permits our Board to grant shares of our common stock to our employees. The number of shares able to be granted is limited to the amount permitted to be granted at law, the ASX Listing Rules and by the limits on our authorized share capital in our amended and restated certificate of incorporation. All our employees are eligible for shares under the Employee Share Plan. The Company currently proposes to issue A\$1,000 worth of Restricted Shares to all eligible employees of the Company on a recurring basis, but no more frequently than annually. The Restricted Shares have the same terms of issue as our existing shares of common stock but are not able to be traded until the earlier of three years from the date on which the Restricted Shares are issued or the date the relevant employee ceases to be an employee of the Company or any of its associated group of companies.

Executive Service Agreements

Remuneration and other terms of employment for the executive officers are formalized in executive service agreements. The terms and conditions of each of the employment agreements with our executive officers who continued to serve at December 31, 2012 are substantially similar, a summary of which is set out below:

- the executive must devote his time and attention exclusively to our business and affairs and the business and affairs of Universal Biosensors Pty Ltd, unless otherwise approved by the Company;
- the executive is bound by customary confidentiality, intellectual property assignment and non-competition clauses;
- the executive's salary is to be reviewed on an annual basis;
- the executive may be entitled to a discretionary cash bonus or be granted stock options under the Employee Option Plan as recommended by the Remuneration and Nomination Committee and determined by our Board of Directors from time to time;
- each party has the right to terminate the agreement by giving three months notice to the other party or, in the case of Mr. Wright's agreement, with six months notice;
- we may also terminate the agreement, at any time with reasonable notice, with immediate effect for cause, for default by the executive in the performance of the executive's responsibilities or the discharge of the executive's duties, for fraudulent or dishonest conduct by the executive or intemperate use of alcohol or drugs by the executive or conviction of the executive for the commission of a felony or willful or intentional injury to our business or affairs; and
- each agreement, with the exception of the agreement with Dr. Oates, Dr. Davis and Mr. Wright, will terminate automatically on a date specified in the executive employment agreement unless extended by us from time to time. If the parties whose contracts have fixed end dates do not expressly extend the agreement, the executive's employment will automatically extend for a further 12 months on the same terms. Dr. Oates' and Mr. Wright's agreement does not have a specific end date and terminates with notice in accordance with its terms.

Subject to applicable law, other than payments during the notice period and any outstanding annual leave and long service leave entitlements, no additional payments are payable on termination or change of control.

Consideration of Results of Prior Year Shareholder “Say-on-Pay” Vote

Approximately 99% of our shareholders who cast votes, voted in favor of the compensation paid to our named executive officers for 2011. Accordingly, when developing our executive compensation program for 2012 and 2013, we considered the overall level of support and did not make any material changes to the structure of our compensation program.

Pension benefits

We do not provide pension benefits to our named executives. Instead, as required by Australian law, we contribute to standard defined contribution superannuation funds on behalf of all employees at an amount up to nine percent of each such employee’s salary. Superannuation is a compulsory savings program whereby employers are required to pay a portion of an employee’s remuneration to an approved superannuation fund that the employee is typically not able to access until they are retired. We permit employees to choose an approved and registered superannuation fund into which the contributions are paid.

Non-qualified Defined Contribution and Other Non-qualified Deferred Compensation Plans

We do not maintain any non-qualified defined contribution or deferred compensation plans.

Potential payments upon Termination or Change-in-control

Pursuant to our Bylaws, a majority of disinterested directors or stockholders will be required to independently consider and approve any material related party transactions involving our executive officers or

directors. When considering related party proposals in the past, our Board has formed a sub-committee of disinterested directors to consider and approve the relevant related party proposals. OTHER MATTERS

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Exchange Act requires that our executive officers and directors and other persons who beneficially own more than 10% of a registered class of our equity securities file with the SEC reports of ownership and reports of changes in ownership of shares and other equity securities. Such executive officers and directors and other persons who beneficially own more than 10% of a registered class of our equity securities are required by the SEC to furnish us with copies of all Section 16(a) filed by such reporting persons.

Based solely on our review of such forms furnished to us or written representations provided to us by the reporting person, we believe that all filing requirements applicable to our executive officers, directors and other persons who beneficially own more than 10% of a registered class of our equity securities were complied with in the financial year ended December 31, 2012 other than: (i) a delinquent Form 4 filed for Mr. Davis on August 27, 2012 reporting his beneficial ownership following the purchase of 5,371 shares of the Company's common stock by his spouse on August 22, 2012; (ii) a delinquent Form 4 filed on December 28, 2012 for Dr. Wilson reporting her beneficial ownership following her acquisition of 4,444 shares of the Company's common stock on December 18, 2012 pursuant to the Share Purchase Plan; (iii) a delinquent Form 4 filed on November 21, 2012 for each of Mr. Chambers and Mr. Balak reporting their respective beneficial ownership following the granting to each of them of options to acquire 25,000 shares of the Company's common stock and 917 shares of restricted stock on November 13, 2012; (iv) a delinquent Form 4 filed on December 28, 2012 for Mr. Balak reporting his beneficial ownership following his acquisition on December 18, 2012 of 2,222 shares of the Company's stock pursuant to the Share Purchase Plan; (v) a delinquent Form 4 filed on December 28, 2012 for Mr. Wright reporting his beneficial ownership following his acquisition of 16,666 shares of the Company's common stock on December 18, 2012 pursuant to the Share Purchase Plan; (vi) a delinquent Form 4 filed on March 6, 2012 for Dr. Hodges reporting his beneficial ownership following his sale of 1,000,000 shares of the Company's common stock on February 27, 2012; and (vii) a delinquent Form 4 filed on November 23, 2012 for each of Dr. Hodges, Mr. Oates and Mr. Davis reporting their respective beneficial ownership following the granting to each of them of options to acquire 25,000 shares of the Company's common stock and 917 shares of restricted stock on November 13, 2012; and (viii) a delinquent Form 4 filed for Mr. Denver on January 8, 2013 reporting his beneficial ownership following the sale of 678,375 shares held by Mr. Denver to a family trust on May 15, 2012 and the sale of 676,153 shares of the Company's common stock held by Mr. Denver's spouse to the same family trust on May 16, 2012.

2014 Stockholder Proposals

Under Rule 14a-8 under the Securities Exchange Act of 1934, as amended, some stockholder proposals may be eligible for inclusion in our 2014 proxy statement. These stockholder proposals must be submitted, along with proof of ownership of our stock in accordance with Rule 14a-8(b)(2), to our corporate headquarters, care of our Company Secretary. We must receive all submissions no later than December 3, 2013. We strongly encourage any stockholder interested in submitting a proposal to contact our Company Secretary in advance of this deadline to discuss the proposal, and stockholders may want to consult knowledgeable counsel with regard to the detailed requirements of applicable securities laws. Submitting a stockholder proposal does not guarantee that we will include it in our proxy statement. The Board reviews all stockholder proposals.

Alternatively, under our Bylaws, if a stockholder does not want to submit a proposal for the 2014 meeting for inclusion in our proxy statement under Rule 14a-8 but wants to bring any other business before a meeting of stockholders, or intends to nominate a person as a candidate for election to the Board directly (rather than

through our Nominating and Corporate Governance Committee), the stockholder may submit the proposal or nomination to our Company Secretary between January 16, 2014 and February 15, 2014. However, if the date of the 2014 meeting is changed by more than 30 days from the anniversary of the 2013 meeting, our Company Secretary must receive the notice no later than the close of business on the tenth (10th) day following the day on which such notice of the date of the annual meeting was mailed or such public disclosure of the date of the annual meeting was made, whichever first occurs.

Stockholders who intend to nominate an individual for election to the Board or to bring any other business before a meeting of stockholders must follow the procedures outlined in Sections 4.10 and/or 4.11 of Article IV of our Bylaws. We will not entertain any proposals or nominations at the annual meeting that do not comply with these requirements. If the stockholder does not also comply with the requirements of Rule 14a-4(c)(2) under the Securities Exchange Act of 1934, as amended, we may exercise discretionary voting authority under proxies that we solicit to vote in accordance with our best judgment on any such stockholder proposal or nomination. Our Bylaws are posted on our Web site at www.universalbiosensors.com in the “Corporate Governance” section under “Investor information.” To make a submission or to request a copy of our Bylaws, stockholders should contact our Company Secretary.

Other Business

Management is not aware of any matters to be presented for action at the Meeting, except matters discussed in the Proxy Statement. If any other matters properly come before the meeting, it is intended that the shares represented by proxies will be voted in accordance with the judgment of the persons voting the proxies.

HOUSEHOLDING

We have adopted a procedure approved by the Securities and Exchange Commission called "householding." Under this procedure, a householding notice will be sent to stockholders who have the same address and last name and do not participate in electronic delivery of proxy materials, and they will receive only one copy of our Annual Report and Proxy Statement unless one or more of these stockholders notifies us that they wish to continue receiving individual copies. This procedure reduces our printing costs and postage fees. Each stockholder who participates in householding will continue to receive a separate proxy card. If you participate in householding and wish to receive a separate copy of this proxy statement or the 2012 Annual Report, please contact our Company Secretary, Cameron Billingsley, at +612 8115 9801 or write us at 1 Corporate Avenue, Rowville VIC 3178. If any stockholders in your household wish to begin receiving separate Annual Reports and separate Proxy Statements, they may call our Company Secretary, Cameron Billingsley, at +612 8115 9801 or write us at 1 Corporate Avenue, Rowville VIC 3178. They may also send an email to us at companysecretary@universalbiosensors.com. Other stockholders who have multiple accounts in their names or who share an address with other stockholders can authorize us to discontinue mailings of multiple annual reports and Proxy Statements by calling or writing to the Company Secretary at 1 Corporate Avenue, Rowville VIC 3178 or by email at companysecretary@universalbiosensors.com.
